

# **Gentari AutoCharge for Power Pass Members**

# AutoCharge

an innovative feature for Electric Vehicle (EV) drivers that allows you to connect your EV to the charging station with ease. Just plug in and play – it's that simple.

This feature is specifically applicable to Direct Current (DC) charging, offering convenience and efficiency to EV users. Currently, enrollment in AutoCharge is limited to certain vehicle models and charging devices, ensuring compatibility and optimal performance.

# Activating AutoCharge

# Steps to Enroll in AutoCharge

---

- 1 Check if your electric vehicle (EV) is eligible for AutoCharge.**
- 2 Physically visit any of the specified EV charging station locations.**
  - PETRONAS Juru Layby NB, Pulau Pinang
  - PETRONAS Sg Buloh Lay-by, Selangor
  - XPark Sunway Serene, Selangor
- 3 Follow the steps below using the Gentari Go app:**
  - i. Use the app to initiate a charging session at a Gentari DC charger displaying the AutoCharge sign.
  - ii. Once the charging begins, the app will prompt you to activate AutoCharge.
  - iii. Request to enroll in AutoCharge.
  - iv. Review and acknowledge the TnC within the app.
- 4 Your subsequent charging sessions will start instantly when you plug in your vehicle.**

 **AUTOCHARGE** Identify AutoCharge-enabled locations via the app for a seamless charging experience.
