

## Gentari Security Policy

**Gentari shall implement an effective security management system across the Gentari Group, to identify, evaluate, and manage security risks to our people, property, information, and operations.**

Gentari shall follow and apply security policies, standards, and guidelines.

Gentari shall promote security awareness and communicate to all stakeholders the requirement to adhere to Gentari's security risk management standards, procedures, and instructions at all times.

Gentari shall provide the necessary resources to acceptable levels while striving for best practices in security management to ensure that our business operations are conducted in a safe and secure environment and continue to promote and support the understanding that security is everyone's responsibility.
